Product Notification – Ampol Molygrease HD 1/HD2 Rebranding to Mobilgrease 461/462 Moly

Dear Ampol Customer / Distributor Partner,

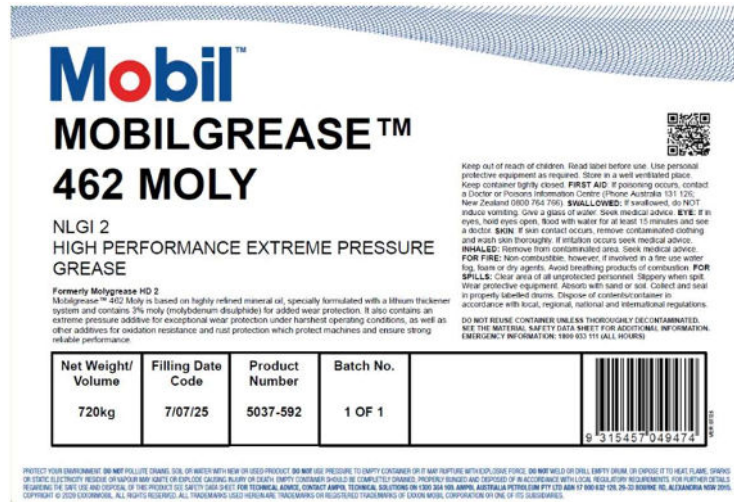

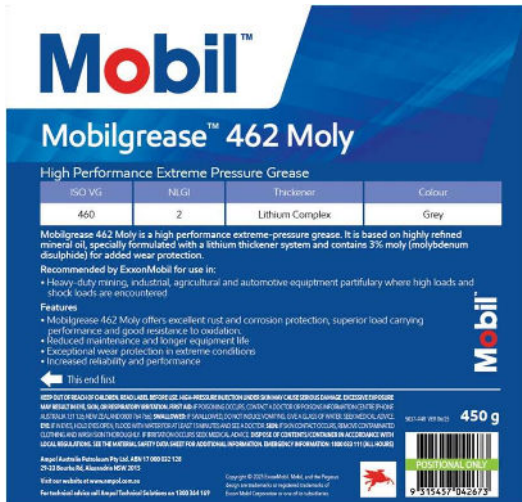

Subject: Ampol Molygrease rebranding to Mobilgrease 461/462 Moly – Packaging Update Only

We're excited to inform you that Ampol Molygrease will be rebranded under the Mobil™ name as Mobilgrease™ 461 Moly or Mobilgrease™ 462 Moly from November 2025 onwards.

This change is part of our ongoing efforts to align with the broader line of **Mobil heavy-duty greases**, offering a more unified and recognisable product range.

Summary of changes by pack size:

Product Code	Current Product Description	New Product Description	Timing
5037-580	Ampol Molygrease HD 2 180kg	Mobilgrease™ 462 Moly 180kg	Nov-25
5037-520	Ampol Molygrease HD 2 20kg	Mobilgrease™ 462 Moly 20kg	Nov-25
5037-001	Ampol Molygrease HD 2 IBV	Mobilgrease™ 462 Moly IBV	Nov-25
5037-448	Ampol Molygrease HD 2 450g	Mobilgrease™ 462 Moly 450g	Dec-25
5038-580	Ampol Molygrease HD 1 180kg	Mobilgrease™ 461 Moly 180kg	Jan-26
5038-520	Ampol Molygrease HD 1 20kg	Mobilgrease™ 461 Moly 20kg	Jan-26
5038-001	Ampol Molygrease HD 1 IBV	Mobilgrease™ 461 Moly IBV	Jan-26

This is a **packaging update only**. The product inside remains the same – no changes to quality, performance or specifications.

What's Changing?

- **New packaging labels & product name** featuring updated Mobil branding, icons and clearer product information
- **Modernised design** for easier identification and improved shelf presence

What's Not Changing?

- The **product formulation** – same trusted performance and specifications
- **Product codes, pack sizes, barcodes** – all remain unchanged
- **Ordering process** – no change to your normal ordering process
- **Our commitment** to delivering high-quality lubrication solutions

We're confident that these improvements will enhance recognition, usability, and confidence across all touchpoints.

If you have further questions or need updated images for your systems or marketing materials, please contact your Ampol Business Manager or Ampol Technical Solutions 1300 364 169.

Thank you for your continued trust and partnership.

Warm regards,

Ampol Lubricants Team

Frequently Asked Questions (FAQs)

Q: Is the product formula changing?

A: No. Only the label is changing. The formulation, quality and performance specifications remain identical.

Q: Will the product barcode or SKUs change?

A: No. Product barcodes and SKUs remain unchanged. You can continue to order as you normally would.

Q: When will I start seeing the new labels?

A: New labels will begin appearing on packaging from November onwards. Timing will be dependent on the rundown of the current stock levels at different locations. There may be some cases where Customers receive a mix containing the last Ampol branded product as the Mobil brand is phased in.

Q: Can I still use the Ampol branded product I have in stock?

A: Absolutely. The product is the same, regardless of label branding. It is advisable to sell older stock first as best practice.

Q: Will there be any changes to the product data sheets (PDS) & safety data sheets (SDS)?

A: Yes. The PDS & SDS documents align to standardised template we currently use on other products within our Mobil lubricants portfolio. Available online at <https://www.ampol.com.au/your-vehicle/engine-oils/find-the-right-oil>

Q: Why are you changing the labels?

A: Our refreshed labels improve clarity, align with our Mobil lubricants offer, and make it easier for customers to identify the right product.

Q: Will this affect how I store or use the product?

A: Not at all. Handling, storage, and usage remain the same.

Q: Will the new Mobil branded grease still be manufactured by Ampol in Australia?

A: Yes, we will continue to manufacture this grease locally at our Lytton QLD facility.
